

Spinal Trigeminal Tract

Nathaniel Yomogida, SPT

Chloë Kerstein, SPT

Table of contents

1 Anatomy	1
2 Function	1

1 Anatomy

- “Root fibers entering the spinal trigeminal tract and nucleus have a definite topographical organization caused by medial rotation of the sensory root as it enters the pons”¹

2 Function

“The spinal trigeminal tract and nucleus relays the sensory modalities of pain and temperature”¹
