## Excitatory amino acid transporter 2 (EAAT2)

Nathaniel Yomogida, SPT Chloë Kerstein, SPT

## **Table of contents**

1 Deficiency 1

• a specific glutamate transporter protein<sup>1</sup>

## 1 Deficiency

- A deficiency in EAAT2 is correlated with excitoxicity and neurodegeneration<sup>1</sup>
  - This has been attributed as a factor that impacts ALS progression<sup>1</sup>
